Author's Preface

Part I

Introduction 1

Part II

General Instructions 9

Part III

Multiplication and Division 21

Part IV - Specific Slide Rule Settings

1. Computing per-centages 38

2. Inventory and invoice  
calculations 41

3. Sales price on gross profit basis 44

4. Sales price on mark-up basis 45

5. Cost on the gross profit basis 46

6. Finding the case cost 47

7. Finding the unit pack	48
8. Cost on the mark-up basis	48
9. Converting to and from gross profit and mark-up	49
10. Chain discounts	52
11. Trade discounts — method 1	54
12. Trade discounts — method 2	56
13. Converting fractions to and from decimal equivalents	58
14. Finding the least common denominator	60
15. Improper fractions	61
16. Interest on fixed monthly payments	62
17. Interest on non-recurring payments	66
18. Interest — finding the rate	69
19. Interest — finding the principal	70
20. Interest — finding the days	71
21. Interest — basic formula	72
22. Compound interest and square roots	73
23. Interest compounded semiannually	74
24. Interest compounded quarterly	75
25. Raising a number to a desired power	76

THE SLIDE RULE SIMPLIFIED	vii
26. The square root on the slide rule	78
27. Extracting the square root	79
28. Adapting the slide rule	81
29. A short cut	82
30. Finding the cube root	84
31. The fourth power in one operation	87
32. Prorating — based on amounts	88
33. Prorating — based on per-centage	93
34. Preparation of tables	94
35. Tables with two variable factors	97
36. Converting and/or proportion	99
37. Converting feet per second to mph	101
38. Converting cubic feet to gallons	102
39. Summary	104
Part V	
Miscellaneous problems and answers with slide rule settings	107
Part VI	
Miscellaneous problems and answers	123
Index	135
