T. M. SHERMAN

SOLUTION OF RAILROAD PROBLEMS BY THE SLIDE RULE

BY

E. R. CARY, C.E.

Professor of Railroad Engineering and Geodesy, Rensselaer Polytechnic Institute, Troy, N.Y.
Member American Society Civil Engineers

NEW YORK
D. VAN NOSTRAND COMPANY
25 PARK PLACE
1913

TABLE OF CONTENTS

CHAPTER I

The Slide Rule

ART.		PAGE
1.	The Construction and Setting of the Slide Rule	1
2.	The Mannheim Slide Rule	4

CHAPTER II

Simple Curves

3.	The Center Line	5
4.	The Degree of a Curve	5
5.	The Decimal Point	7
6.	The Functions of a Curve	7
7.	The Middle Ordinate	10
8.	The Tangent Offset	12
9.	A Curve laid out by a Tape	13
10.	Offsets from a Chord	15
11.	Deflection Angles	16
12.	Offsets from a Tangent	19
13.	Special Problems	21
14.	Other Special Problems	28

CHAPTER III

Compound Curves

16.	Compound and Reversed Curves	31
17.	Method of Solution by Coördinates	33

CHAPTER IV

Vertical Curves

ART. PAGE
18. The Vertical Curve..... 48

CHAPTER V

Turnouts

19. The Split Switch Turnout..... 51
20. The Turnout from a Curve..... 54
21. The Stub Switch Turnout..... 57
22. The Approximate Method for a Turnout from a Curve..... 58
23. The Connecting Curve..... 62
24. A Connection between Parallel Tracks..... 63
25. A Connection between Concentric Curves... 64
26. The " Y " Curve..... 70

CHAPTER VI

The Easement Curve

27. The Easement Curve..... 75
28. The True Spiral..... 78
29. The Spiral Angle..... 79
30. The Deflection Angles for a Spiral..... 80
31. The Offset from the Tangent..... 81
32. The Deflections from the Tangent thru the P.S..... 82
33. The Value of p 83
34. The Value of i 83
35. The Value of q 85
36. The Value of T_s..... 87
37. To find the Tangent at any Point..... 87

ART. PAGE
38. The Deflections from any Point on the Spiral 88
39. The Methods of Laying out Spirals 89
40. The Offset Method 91
41. The Spiral between the Branches of a Compound Curve 93
42. The Spiral Tables 94
44. Spirals not given in the Tables 95
46. The Solution of a Spiral by the Slide Rule .. 104
47. The Equation for Deflections, using the Slide Rule 112
48. The Diagram for e 113
49. The Diagram for l_c 115

CHAPTER VII

Earthwork

50. Cross-sections 117
51. Form of Notes for Cross-sections 118
52. Change from Cut to Fill 119
53. A Level Section 120
54. A Three-level Section 121
55. The Methods of Computation 123
56. The Prismoidal Correction 123
57. The Formulas for Slide Rule Computations. 126

PROBLEMS

PROB.
1. To find the Radius 6
2. To find the Tangent Distance 8
3. To find the External Distance 9
4. To find the Middle Ordinate 10
5. To find the Long Chord 10

PROB. PAGE

6. To find the Middle Ordinate 12
7. To find the Tangent Offset 12
8. To find the Offset from any Point on a Chord 16
9. To find the Deflections 17
10. To locate a Curve by Offsets from the Tangent 19
11. To change the Ending Tangent 24
12. To change the Ending Tangent 25
13. To change the Ending Tangent 26
14. Special Problem for a Simple Curve 28
15. Tangent Distances for a Compound Curve .. 32
16. Compound Curve 33
17. Compound Curve 36
18. Compound Curve 39
19. Changing a Simple to a Compound Curve ... 41
20. Three-centered Compound Curve 43
21. A Reversed Curve 45
22. A Reversed Curve 46
23. A Vertical Curve 48
24. A Split Switch Turnout 53
25. A Turnout from a Curve 60
26. A Connecting Curve 62
27. A Connection between Parallel Tracks 64
28. A Turnout and Connecting Curve for Concentric Curved Tracks 66
29. Similar to Prob. 28 68
30. A "Y" Curve 70
31. A "Y" Curve 72
32. Deflections for a Spiral, using the Tables 97
33. Deflections for a Spiral, using the Slide Rule. 104
34. Earthwork, using the Slide Rule 128
35. Earthwork, using the Slide Rule 128

PROB. PAGE
36. Earthwork, using the Slide Rule..... 129
37. Earthwork, using the Slide Rule..... 130
38. Earthwork, using the Slide Rule..... 130
39. Earthwork, using the Slide Rule..... 131

DIAGRAMS

For e 114
For l_c 116

TABLES

For Deflection Angles for Spirals..... 100–103
Constants..... 132
Formulas for Triangles..... 132
Trigonometric Formulas..... 133
Trigonometric Series..... 134
Simple Curve Formulas..... 134
Vertical Curve Formulas..... 135
Turnout Formulas..... 135
Spiral Formulas..... 136
Earthwork Formulas..... 136
