

In this lesson you will learn...

1. The Scales of a Slide Rule...	Page 3
2. Special Scales...	Page 4
3. The Parts of Your Slide Rule...	Page 5
4. A Slide Rule for Adding and Subtracting...	Page 6
5. Multiplying and Dividing by Adding and Subtracting...	Page 9
6. Multiplying With the Slide Rule...	Page 10
7. Reading the Slide Rule Scales...	Page 12
8. Reading With Hairline Between Marks...	Page 14
9. Reading Other Parts of the Scales C and D...	Page 15
10. Reading Other Scales...	Page 16
11. Decimal Point in Slide Rule Operation...	Page 17
12. Practical Multiplying...	Page 19
13. Multiplying More Than Two Factors...	Page 24
14. Division...	Page 25
Examination...	Page 26

ELECTRONICS SLIDE RULE NO. 515
designed by CLEVELAND INSTITUTE OF ELECTRONICS
U. S. Patent Number 3,120,342

distributed by
Cleveland Institute of Electronics
1776 East 17th St.
Cleveland, Ohio 44114

In this lesson you will learn...

15. Reciprocals...	Page 24
16. Combined Multiplication and Division...	Page 25
17. Resetting the Slide...	Page 30
18. Handling Several Factors with CI Scale...	Page 32
19. Solving Practical Problems With the Slide Rule...	Page 35
20. Repeated Operations With One Factor Constant...	Page 37
21. Squares and Square Roots...	Page 40
22. Evaluating Expressions Containing Squares...	Page 44
23. Evaluating Expressions Containing Square Roots...	Page 48
24. Proportion...	Page 53
Examination...	Page 55 a

In this lesson you will learn ...

25. Reactance and Resonance Decimal Point Locator...	Page 53
26. Decimal Point Locator, Resonance Problems...	Page 54
27. Reactance Problems...	Page 58
28. The 2π Scale..	Page 60
29. Using the H Scale...	Page 64
Using the Trigonometric Scales...	Page 68
30. The Trigonometric Functions...	Page 69
31. Finding Sines and Cosines With the S Scale...	Page 71
32. Finding Tangents by Means of the T Scale...	Page 75
33. Finding Cotangents With the T Scale...	Page 77
34. Combined Operations - Multiplication...	Page 78
35. Combined Operations - Division...	Page 82
36. Combined Operations for the Tangent and Cotangent.	Page 84
Examination...	Page 85 a

In this lesson you will learn...

- 37. Solving the Right Triangle When the Hypotenuse c and One Acute Angle, A or B , Are Known... Page 84
- 38. Solving the Right Triangle when One Leg, a or b , and the Opposite Angle Are Known... Page 88
- 39. Solving the Right Triangle When One Leg, a or b , and the Adjacent Angle Are Known... Page 90
- 40. Solving the Right Triangle When the Hypotenuse c and One Other Side, a or b , Are Given... Page 93
- 41. Solving the Right Triangle When the Two Legs, a and b , Are Given... Page 95
- 42. Finding Trigonometric Functions of Small Angles... Page 97
- 43. Solving Circuit Problems By Triangle Rules... Page 99
- 44. Using Scale L ... Page 103
- Summary... Page 104
- Appendix...
- Examination...

Appendix

A chat with your instructor.....	2
----------------------------------	---

PART 1

(a) Finding logarithms.....	4
(b) Powers of e and 10.....	5
(c) Finding logarithms of proper fractions...	6
(d) Powers for negative exponents.....	7
(e) Finding the characteristic.....	8
(f) Extending the range for 10^Y and e^Y	9
(g) A shortcut in using $\text{Ln } 10 = 2.30258$	10

PART 2

(h) Multiplication with powers.....	11
(i) Division with powers.....	12
(j) Examples for practice.....	12
(k) Logarithms of combined operations.....	13
(l) Powers of other bases.....	14
(m) Hyperbolic functions.....	15
(n) Applied problems.....	16
