CONTENTS

		PRE-REQUISITE READING	SLIDE RULE SCALES INTRODUCED	PAGE NUMBER
Preface				vii
CHAPTER				
I	The Basic Slide Rule			1
	The slide rule			1
	Math facts — Exponents			2
	Multiplication by exponent addition			4
	Development of the slide rule			6
	Multiplication on the slide rule		C, D	10
	Division and reciprocals			16
	Repeated and mixed processes			19
	Locating the decimal point			23
	Negative numbers			24
	Math facts — Logarithms			24
	Slide rule as a logarithm scale			26
	Logarithms by slide rule		L	26
	Antilogarithms			30
	Inverted scales		CI, DI	30
II	Advanced Scales and Operations	I		35
	Displaced scales		CF, DF, CIF	35
	Proportions			40
	Squares and square roots		A, B, R1, R2, Sq1, Sq2	44
	Cubes and cube roots		K	51
	Math facts — Powers and roots by logarithms			54

CHAPTER		PRE-REQUISITE READING	SLIDE RULE SCALES INTRODUCED	PAGE NUMBER
	Use of L scale to find roots and powers			54
	Pythagorean scale		P	54
III	Trigonometry Calculations	I		59
	Math facts — Trigonometry terms			59
	Sine		S, ST, SRT	64
	Arc sine			68
	Cosine			69
	Arc cosine			70
	Tangent		T	71
	Arc tangent			75
	Multiple values of inverse functions			76
	Functions of angles over ninety degrees			77
	Reciprocal functions			77
	Minute and Second conversions			78
IV	The Log-Log Scales	I		79
	Introduction to log-log scales		LL1, LL2, LL3	79
	Powers of e			81
	Raising a number to a power			82
	The LL0 scales		LL0, LL00, LL000, LL01, LL02, LL03, Ln0, Ln1, Ln2, Ln3, Ln −0, Ln −1, Ln −2 Ln −3	83
	Fractional powers or roots			87
	Odd logarithms			87
	Exponential equations			89
	Extended values			90
V	Vector Diagram Problems	I, III		92
	Math facts — Vectors			92
	Vector diagrams			92
	Vector problems			93

CHAPTER		PRE-REQUISITE READING	SLIDE RULE SCALES INTRODUCED	PAGE NUMBER
VI	Hyperbolic Functions	I, III, IV		97
	Math facts — Hyperbolic functions			97
	Hyperbolic sine (sinh)		SH1, SH2	100
	Hyperbolic tangent (tanh)		TH	101
	Hyperbolic cosine (cosh)			104
	Hyperbolic functions by exponential formulas			104
VII	Complex Functions	I, III, IV, VI		106
	Introduction			106
	Raising *e* to an imaginary power			106
	Raising *e* to a complex power			110
	Evaluation of complex functions			110
VIII	Circular Slide Rules	I		113
Appendices				
A. Summary				116
B. How to Make Your Own Slide Rule				117
C. Answers to Practice Problems				125
Index				198
