REVIEW OF PROCEDURES

Use of the Slide Rule	3
Multiplication	4
Division	4
Combined Multiplication and Division	4
CF and DF Scales	5
Proportions or Ratios	5
CI and CIF Scales	5
A and B Scales	6
K Scale	6
S and ST Scales	7
Graduation of Angles	7
T Scale	8
Angles Greater Than 90°	8
Sines and Tangents of Small Angles	9
Plane and Spherical Trigonometry	10
Functions of Right Plane Triangles	10
Solutions of Right Triangles	11
Solutions of Oblique Plane Triangles	11
Area of Triangles	13
Right Spherical Triangles	14
Oblique Spherical Triangles	14
Symbols Used in Navigation	16
Selected Abbreviations Used in Navigation	17

INSHORE NAVIGATION

Speed, Time, and Distance	21
Distance to the Horizon	24
Distance by Sextant Angle	25
Distance by Horizon Angle	25
Distance Short of Horizon	27
Distance Beyond Horizon	29
Distance of Visibility of Objects	30

Distance by Bearings	32
Distance Off Abeam by One Bearing and Run to Beam	32
Distance Off at Second Bearing by Two Bearings on Bow and Run Between	32
Distance Off When Abeam by Two Bearings on the Bow and Run Between	33
Run to a Given Bearing and Distance Off When on That Bearing	34
Distance Off Two Landmarks or Seamarks	36
Heading to Bring Light to Specified Distance and Bearing, and Run Thereto	38
Current Sailing	40
Course and Speed Made Good for Known Set and Drift	40
Set and Drift from Track Between Fixes	41
Direction and Speed of True Wind	43
Great-Circle Direction Converted to Mercator Direction, and Vice Versa	46
Consolan and Consol	48
Plane Sailing	51

OFFSHORE NAVIGATION

Mid-Latitude Sailing	57
Great-Circle Sailing	60
Sextant Altitude Correction	68
Dip of the Horizon	68
Dip Short of the Horizon	69
Mean Refraction	69
Refraction for Non-Standard Temperature	72
Refraction for Non-Standard Barometric Pressure	73
Refraction for Combined Non-Standard Temperature and Non-Standard Barometric Pressure	73
Sun's Semidiameter and Parallax	74
Sea-Air Temperature Difference	74
Sun, Stars, and Planets	75
Sight Reduction	77
Computing Azimuth	77
Computing Altitude	79
Horizon Sights	83

Time Conversion	86
Time to Arc	86
Arc to Time	87
Local Mean Time to Zone Time	87
Time of Local Apparent Noon	89
Noon Sights	91
Solution of Noon Sight	91
Fixes in Conjunction with Noon Sight	92
Longitude at Local Apparent Noon	93
Latitude Approximated by Altitude of Polaris	98
Reduction to the Meridian	100
Amplitudes	102
Rate of Change of Altitude	105
Rate of Change of Azimuth	106
Times of Sunrise, Sunset, and Civil Twilight	108
Times of Moonrise and Moonset	114
Celestial Observations	116
Time and Altitude on the Prime Vertical	116
Line-of-Position Bisectors	118
Error Caused by Timing Error	120
Star Identification	121
Interpolating in H.O. Publications Nos. 214 and 229	123
Aquino Method — Fix by Observations of a Single Body	125
Willis Method — Fix by Observations of a Single Body	127
Fix by Two Observations Without Plotting	129
Long-Term Sun Almanac	133
Long-Term Star Almanac	144

MISCELLANEOUS COMPUTATIONS

Temperature Conversion	155
Barometric-Pressure Conversion	156
Fuel Consumption	158
Propeller Slip	161
Rigging Loads	164
Span Loads	170
Wind-Generated Pressure on a Ship	173
Draft of a Steamer When Heeled	174
Sailing to Weather	175

Tacking Down Wind	177
When Lee Mark is Dead to Leeward	177
When Lee Mark is Not Dead to Leeward	178
Draft Variation of a Sailboat When Heeled	182
Decimals of an Hour into Minutes and Seconds	184
Minutes and Seconds as Decimals of an Hour	186
Conversion Tables	187
Length	187
Mass	188
Speed	189
Volume	190
Speed of Sound	191
Volume Mass	191
