FOREWORD v

SECTION 1. THE PRINCIPLE OF THE SLIDE RULE . . 15
Linear and non-linear scales—numbering of the scales—reading the scales—multiplication and division of simple numbers.

SECTION 2. FRACTIONS—DECIMALS 23
Fractions, addition and subtraction—Multiplication and division—Decimals, Conversion of Decimal Fractions into ordinary Fractions—Addition and Subtraction—Multiplication and Division—Contracted methods—Conversion of ordinary Fractions into Decimal Fractions—Recurring Decimals—Conversion of Recurring Decimals into ordinary Fractions.

SECTION 3. THE MODERN SLIDE RULE . . . 32
Protection of the Slide Rule—Component parts—C & D Scales—A & B Scales—Log Scale—The Cursor—Linear Scales.

SECTION 4. C & D SCALES 41
Multiplication—Division—Multiplication and Division combined—Position of a Decimal Point.

SECTION 5. A & B SCALES 61
Squares and Square Roots—Cubes and Cube Roots—Cube Scale.

SECTION 6. LOG LOG SCALES 71
Evaluation of Powers and Roots—Common Logarithms—Natural Logarithms.

SECTION 7. THE TRIGONOMETRICAL SCALES . . 77
Sine Scale—Tangent Scale—Solution of Triangles—Navigational Problems—Navigational Units and Formulae—Wind and Drift Problems—Interception Problems—Calculation of True Track and Distance.

SECTION 8. THE COMMERCIAL RULE 108
The Special Commercial Scales—Money Calculations—Discount Scale—The Monetary Rule—£.s.d. Scales—Invoicing calculations.

SECTION 9. THE PRECISION RULE 124
The Special C & D Scales—Multiplication—Division—Determining in which scale lies the answer.

SECTION 10. THE ELECTRICAL RULE 131
Dynamo and Motor Efficiencies—Volt Drop—Duplicate C & D Scales—Reciprocal Scale—Time Saving.

SECTION 11. THE DUALISTIC RULE 142
Duplicated C & D Scales—Special 20″ Scales for ordinary calculations—Squares and Square Roots—Cubes and Cube Roots—Log Log Scales.

SECTION 12. THE BRIGHTON RULE 157
The ordinary Scales—Log Log Scales—Sine & Tan Scales—Cube Scale—Log Scale.

SECTION 13. INDICES & LOGARITHMS 162
Indices—Multiplication and Division—Logarithms—Reading Log Tables—Multiplication and Division—All Bilogarithms—Powers and Roots—Logarithms with Negative Characteristics—Tables of Logarithms and Antilogarithms.

SECTION 14. OTHER CALCULATING INSTRUMENTS . . 178
Cylindrical Calculators—Circular Calculators—Watch type Calculators—Other Rules.

SECTION 15. HISTORICAL NOTE 184
Invention of the Slide Rules—Degree of Accuracy—Common Gauge Points—Marking Special Gauge Points.

SECTION 16. EXERCISES 190
Commerce—Energy and Power—Friction and Heat—Strength and Deflection of Beams—Strength of Shafts and Deflection of Springs—Electricity—Building—Surveying—Navigation—Miscellaneous.

ANSWERS TO PROBLEMS 206
